### *Burden of Goals & Hidden Treasures*

---

**Characteristics:** The Ace of Spades is either very materialistic or driven by work and career, or extremely spiritual with an esoteric mind. They give to others even if materialistic, because they have special places and means. It comes naturally for them to give. It is suggested by their Karma Card, that their most challenging issues lie in the area of relationships, family and friends. Counseling their friends is a gift and they share it freely with other. It is even career for some. Letting others be themselves is something they are learning as is loving them unconditionally. Pain lessons are sometimes necessary. The supreme spiritual card, the Ace of Spades, is the ancient representation of secret mysteries, and it is, in addition, the most ambitious and materialistic. The Magi Card, as it is known, was, and still is, the symbol used by many of the esoteric schools of wisdom. The members of the Order of the Magi are responsible for the

conservation and dispersion of the card system itself. The Ace of Spades person frequently has deep, previous-life spiritual roots, but a life-long battle with their material, worldly urges is present also. Trials and challenges on the material plane are a part of a Life Path represented with two Sevens and two Nines. Happiness can only be found by adopting a spiritual attitude relative to their life and finding satisfaction in that area is something the Ace of Spades individual needs to learn. The four spiritual cards, in the case of this card, are sending this message directly. Upon beginning to look, because of their spiritual nature, many doors that are not options to most, but open up because they have more aptitude and resources than most cards in the deck. The challenge is realizing this. There is an extreme aspect here. A very loving and considerate and person is what the Ace of Spades is in the end. Inner contentment that results from a life of service and loyalty to higher principles is their goal in life. They become aware of this and learn to abide by the unwritten law that tells us we harvest what we sow. This happens as a consequence of their karma from previous lives being released. There is, in many ways, a supreme sacrifice. They seem to be unjustly punished if they stray from the law or ignore their spiritual side.

**Relationships:** Seeking a perfect union with someone, an individual that is spiritual in nature is the best choice. Bringing great expectations to relationships results from a sense of the possibilities of a divine union in love. Their relationships improve, along

with their odds of finding their true love, after they set aside this dream and start working on their emotions as well as the communication of feelings. Their path, while not impossible, is a difficult one in the area of relationships. They have beautiful dreams of love that wait to be fulfilled and at the core of an Ace of Spades is a very kind and giving individual. It is not beyond their ability to have their perfect relationship. Depending on whether or not they are using a more spiritual direction in their life, largely determines whether their relationships fail or succeed. Difficulties come up again and again in the arena of romance for Ace of Spades people that are more materialistic. Emotional attachment, for materialistic cards, brings repeated pain. Betrayal by people they love, family and disenchantment again and again take place until they become aware that it is their own subtle attachments that cause these problems. Holding true love on such a pedestal of idealism is another factor that is at the forefront for them.

***Personality Connections:*** Diamond men find it difficult to be with them, however. Spade males often like Ace of Spades women and women like Diamond men. Heart males are a benefit for Ace of Spades women and they always benefit from Heart males. They normally give blessings to Club women.

***Confrontations:*** A good example of the Ace of Spades romantic life is Princess Diana. Everything appeared almost like a fairy tale with this young woman who married a prince. Surely, there would be a fairy tale ending where they married and lived happily ever after. Everything seemed to be going right for them. We know though, that in real life, that is not what happened at all. Such a life is possible for the Ace of Spades.
